To ensure an appropriate progression in classes, Grandvalira advised that for reservations of private lessons of 2 people or more, clients must have similar age and level.

(2) As it is a personalized service, times are approximated.

*NEW - Private lessons for families and Covid bubbles

This season they have a new kind of private class for groups of people who are in a Covid "bubble" together.

Grandvalira usually recommends that all the students in a private class have similar ages and levels, to ensure everyone can progress together. However, given the current circumstances, we have decided to heed the recommendations of health officials and help people stay within their closest circles. Students can now take ski classes with up to 10 people who are all in the same Covid "bubble".

The teacher will adapt the class to the student with the lowest level and will then give personal instruction to all the other students, optimising the time available. All the students must agree on whether to do a skiing or a snowboarding class.

CIRCUIT ANDORRA

Winter Contact

This basic course allows the driver to improve confidence and control of a vehicle in low-traction situations or in snowy and icy winter conditions. Individual or semi-private courses last 2 hours, and group classes last 4 hours.

From 175€

Winter Sport

This 2-hour course for experienced drivers for learning sports driving on ice combines the theory and practice of driving on icy tracks with a standard vehicle and later with a race car with front-wheel drive and Pirelli studded tires. The training is totally customized and adapted to the knowledge and skills of each driver.

From 300€

Winter Super Sport

This 2-hour course for learning sports driving on ice combines the theory and practice of driving on icy tracks. Students first learn the basics of driving a standard vehicle, then increase in difficulty to driving a race car with front-wheel drive. Finally, the course ends with students gaining first-hand experience of what it feels like to be a racing driver by driving an four-wheel drive prototype race car.
